

2016 ROSÉ
California

BLEND

Sangiovese 100%

VINEYARD

2016 was another excellent vintage across the state of California for wine production, despite an ongoing drought. These grapes were grown in the heart of Lodi, known for producing vibrant red berries. Picking in early August allowed us to retain the naturally-occurring acids in the grapes while benefiting from the exuberant red flavors for which the region is famous.

WINEMAKING

This wine was picked at 22 Brix in mid-August and immediately pressed off skins. It was cold fermented for four weeks in stainless steel tanks to retain maximum aromatics. After racking from fermentation lees, the wine was aged in tanks until bottling in February 2016.

TASTING NOTES

Made in the style of Provence dry rosés, Luna's 2016 vintage is a deliciously refreshing wine. Gentle scents of strawberries and cream begin the journey that leads to the upfront flavors of framboise and watermelon. Rich notes of pomegranate and white tea round out the mid-palate, and the crisp finish has a gentle citrus kiss.
